CONNECTING OTHERS TO CHRIST, HIS CHURCH, AND THEIR COMMUNITY

Carney HAPPENINGS

Elisabeth made dozens of awesome cookies for our first Christmas cookie exchange!

Victoria was surprised by her German Shepherd puppy on Christmas Eve!

Tyler is excited about trying out his new cast net!

My muscles have grown cold in the area of bike riding. I am looking forward to picking up the pace in 2016!

Wow-God is Good!

After months of paper work and waiting, we started our weekly Bible study in the orphanage this month.

Leonard Dolce of Docle's Tree Service donated 200 Gideon NT's

Doors are opening for the launch of a church in the tri-pueblo area of Xcunya, Tamanche and Komchen.

"A Blustery Return"

December 2015

Merry Christmas and Happy New year! Since arriving to the field, we have spent all but 3 Christmas's here. The Yucatan is known for being hot and long sleeves are not the order of the day, even during Christmas! Snow has never visited the Yucatan but regardless of the temperature outside, our return has been blustery with activity. Here is what we have been up to...

Jeff & Elisabeth

- I have spent time encouraging and visiting with Pastor Oso. He is a young man who we led to the Lord when we first came to the field in 2002. He is doing a great job at Peninsula Baptist Church.
- On our first day back, we received an invitation to teach a Bible class at a local orphanage. We are approved and actively ministering
- I started a weekly adult Bible study on Friday mornings. We are working through a series on called "Questions."
- We were able to host our first Christmas Cookie Exchange on Sunday December 21st. We had 21 present.
- Our license plate fell off or was stolen. As I waited in line for 7 hours to receive new plates, I met a cyclist named Tony. Doors continue to open to share Christ via a plethora of biking groups.

"Looking for a Ray of Sunshine"

From the robbery of materials and our electrical wiring, to workers who don't work, but want to be paid, the story lines are endless! Living "off the grid" is proving to be a challenge. Our solar package is working but we are consistently running short of power. God brought a local contractor across our path who is placing a large solar order on the 10th of January. He has offered to include us in the order for dealer cost (50% savings)!! **We need your help to reach our goal of purchasing 8 additional panels at a cost of \$250 USD per panel (\$2000 total). "Two are better than one" but with solar 4 is not enough! We appreciate your warmth and willingness to bring more sunshine into our lives. Please mark all contributions as: "Carney Sunshine."**
